

D-Rat Multi-rodent Trap

Features & Benefits

Highest quality polymer components offer durability & long service life. They are light weight making for an easily transportable trap.

Front-entry only Shroud to control position of pest & guarantee an accurate, humane kill.

Highly visible yellow Shroud made from recycled material keeps birds clear, bait fresh & makes trap lines easy to follow.

All metal components are made from high quality stainless steel to ensure trap is maintenance free & performs at 100% for it's entire service life.

High power stainless steel spring ensures the quickest set-off time with the highest strike force & clamp pressure to ensure a quick humane kill.

Tapered rim feature for increased sensitivity for the smallest pests.

Trigger Plate rib feature to hold pest positively & ensure an effective humane kill.

The open Shroud design reduces the level of caution which a pest instinctively must overcome - optimizing trapping success.

Fine Set Lever provides safe, hands-clear sensitivity adjustment allowing a one trap solution for both rats & mice. Enables safe & controlled un-setting of a set trap.

External Reset Lever provides safe, simple, hands-clear operation - Safe for all age groups & abilities.

Easy-clean Trigger Plate for ease of use & to ensure maximum pest attraction & interaction with the bait zone.

Multiple Fixing options:

1. Use provided Clip Mount which enables trap to be quickly clipped on/off from mounted surface.
2. Directly screw from front through the provided holes in trap base.
3. Use provided cable tie through cable tie bridge beneath trap base.

100% designed, engineered & manufactured in New Zealand.

5 year full manufacturer's warranty Engineered to deliver 10 years plus service life in our extreme outdoor conditions.
